

# Aşk diye soludum

## Türkçe - English

Dur, bu nasıl acıtan ağır sözler  
Dur, biteceğine başa dönsek yine  
Dur, o ilk ateşi yakan öpüş unutulur mu?

Wait, what kind of hurting and hard words  
Wait, what if we start over instead of ending  
Wait, the kiss that lighted the first fire will be forgotten

Dur, yaşanası daha bir ton şey var  
Dur, çözülemeyecek olan neydi?  
Dur, hani hiç bitmezdi, bitmezdi, bitmemeliydi

Wait, there are tons of more things worth living  
Wait, what was that we couldn't solve  
Wait, actually it never ended, it shouldn't have ended

Tabii doydun, istediğini aldın  
Bana doydun  
Kaç kere beni kendi yerine koydun  
Hiç yokmuşum gibi davranıp durdukça  
Ben de acıyı aşk diye soludum

Of course you've had enough, you took what you wanted  
You've had enough of me  
How many times did you put me in your place  
While you keep acting as I've never existed  
I breathed the pain as love
