

## Taş

Türkçe  
English

Öyle sakın durduğuma bakma  
Habersizce kopan fırtınalara benzerim  
Ne olur, bile bile canımı yakma  
Alet olur oyununa seni pişman ederim  
Yar, etmem elleri,  
Sana zehir ederim

Unuttun mu kurduğumuz o düşleri?  
Göz göze, diz dize, o hoş sohbetleri  
Kaç mevsim yolunu bekledim  
Sarardım yazına hasretim  
Aman, aman, aman  
Ne hata ettim, kabahatim ne? Söyle!  
Öyle pervasız gidemezsin hiçbir yere

Arar bulurum izini  
Bilirsin, zirdeliyim ben  
Yakarım, yıkarım, ne var ne yok  
Gelirim peşinden  
Taş olurum yollarında  
Takılır, düşer, ah yorulursun  
O uzaklar bize haram  
Gel, vazgeç, ziyan olursun

Don't look that I am all that calm  
I resemble the storm that breaks unexpectedly  
Please, don't hurt me on purpose  
I will make you regret that you used me as a tool in your game  
I won't hurt anyone  
I will be a poison for you

Did you forget those dreams that we built  
Staring at each other, very close, those nice talks  
How many seasons I waited for you to come  
I wrapped my longing in your letters  
Please, please, please  
What was my mistake, what was my crime, tell me  
You can't go anywhere carefree like that

I will search and find your trace  
You know that I am completely crazy  
I will burn, destroy, how do you do  
I will go after you  
I will be a stone in your way  
You will trip, fall, get tired  
That distance is wrong for us  
Come, give up, you will go to waste
